

AdSTEM3

European School on 4D STEM Imaging

May 14 – May 18, 2023
Piran, Slovenia

You are cordially invited to participate at the **European School on 4D STEM Imaging (AdSTEM3)**, which will be held in Piran, Slovenia from May 14 to May 18, 2023. This third **Advanced school on Scanning Transmission Electron Microscopy (AdSTEM3)** will focus on emerging 4D STEM imaging techniques. The School is targeted at doctoral students, post-doctoral researchers and also already experienced microscopists.
