

# European workshop on Advanced electron microscopy of ICT and quantum device material structures

Courtesy of Norvik Voskanian

You are cordially invited to the **European workshop on Advanced electron microscopy of ICT and quantum device material structures**. The workshop is held at Chalmers University of Technology, Gothenburg, Sweden, on **May 8-9, 2023**. The workshop addresses advanced imaging techniques, EELS spectroscopy, DPC, *in situ*, operando, thin films, 2D materials and nanowires. Confirmed speakers are, for example, Naoya Shibata (University of Tokyo), Rafal Dunin-Borkowski (ER-C Forschungszentrum Jülich), Regina Ciancio (CNR-IOM, Trieste), Ute Kaiser (Ulm University), Gabriel Sanchez Santolino (Universidad Complutense de Madrid). <https://www.chalmers.se/en/current/calendar/f-european-workshop-on-advanced-electron-microscopy-of-ict-and-quantum-device-material-structures/>
